Fergus Falls Public Library FOUNDATION

What is the Fergus Falls Public Library Foundation?

The Fergus Falls Public Library Foundation is a volunteer board that raises and stewards private donations for library projects that go beyond the library's normal budget. The Foundation adds to public dollars to enhance and extend the library's facilities and offerings.

Projects include capital improvements, large technology improvements, development and support of literacy programs, and community services. The Foundation also acts as a savings account for the library.

What happens with my donation to the Foundation?

What happens when the Library needs new computers?

What happens when the Library needs a "maker space" for creative programming?

How can the Library fund the next new Arts and Cultural program?

The Fergus Falls Library Foundation has the answers to all of these needs.

The Foundation is the investment fund that the community can rely on to fuel its best asset long into the future: the Fergus Falls Public Library!

The Foundation raised and donated over \$3 million dollars toward the library renovation that benefits the community every day.

The Foundation is a separate organization from the Friends of the Public Library. Both organizations work together to support the library for its immediate and long term needs. You can be a Library Super Supporter and give to both!

The Fergus Falls Public Library Foundation funds are managed by West Central Initiative, a 501c3 organization.
